

CREATING ROSTER ONLINE

I know there is some confusion about how to create your roster online. Go to www.aagirlsbasketball.org. You will see a picture going across the screen.

Below this picture is a link that says “Enter your Team Roster Online”. Click on this link and just follow the directions. It will walk you right through the steps necessary to create your roster. After you create roster, there is a link on the right side that will allow you to print your roster.
